La Mesa, CA 91941

Re: Case Number 08-CV-0400 DMS (BLM)
Securities and Exchange Commission, Plaintiff, vs.
TucO Trading, LLC and Douglas G. Frederick ("Frederick"), Defendants
In United States District Court Southern District of California
(the "Court" and the "Case")

Dear Mr. Lennon:

On March 5 and 6, 2008, the Court issued a Temporary Restraining Order and Supplemental Order (the "TRO") at the request of the United States Securities and Exchange Commission (the "SEC") and appointed Thomas F. Lennon as a Temporary Receiver (the "Receiver") for TucO Trading, LLC, a Nevada limited liability company ("TucO"), and its subsidiaries, affiliates and other entities for which TucO is in control.

On March 17, 2008, the Court issued a Judgment as to defendants TucO and Frederick and orders: (1) freezing TucO's assets; (2) appointing Lennon as Permanent Receiver over TucO; and (3) prohibiting the destruction of documents (the "Judgment" and the "Receivership").

The Receiver, as a result of the TRO and Judgment, has requested William H. Ling, Certified Public Accountant and his staff ("Ling") conduct a review of accounting and other records for the Case and to determine if certain actions alleged in the Case have occurred.

Based upon our procedures performed to date regarding accounting and other records provided us by the Receiver for the Case, Ling is reporting to you on the following information:

A. Identified Related Entities and Individual

TucO, a Nevada limited liability corporation formed on August 14, 2006 and Frederick, the managing Class A member are the defendants in the case. TucO has purportedly admitted approximately 250 (323 trading accounts were identified as of March 5, 2008)

Exhibit

A

Page

Thomas F. Lennon, Receiver
Tuco Trading, LLC
May 28, 2008
Page 2

Class B Members ("Class B Members") since inception. Reference should be made to the SEC filings in the Case for more information regarding Tuco and Frederick.

B. Nature and Background of Tuco's Business

From inception, Tuco operated as a day trading entity for its various Class B Members.

Starting on September 15, 2007, Tuco leased office space at 909 Prospect Street, Suite 224, La Jolla, California from which it conducted its business when the Receivership began. Tuco has also used addresses, among others, of 4535 West Sahara Ave., #200, Las Vegas, Nevada; 1807 Morgan Lake Ct., Brighton, Michigan (Frederick's former Michigan house); and 3333 Michelson Drive, Irvine, California, with branch offices (as discussed in the web site) to conduct trades also purportedly available in Chicago, Illinois and Dallas, Texas.

On March 6, 2008, the securities clearing house used by Tuco's primary broker-dealer, GLB Trading, Inc. ("GLB"), Penson Financial Services, Inc. ("Penson"), terminated Tuco's ability to place trade orders on behalf of its Class B Members. This suspension effectively shut down the operations of Tuco.

To open an account and trade through Tuco, Class B Members completed a new account package that included the following:

1. A Trader Information Sheet.
2. An AOL Instant Messenger name on the Trader Information Sheet.
3. The following documents to execute:
 - a. The Confidentiality Agreement and Acknowledgment
 - b. The Trader Agreement
 - c. The Counterpart Signature Page to the Operating Agreement
 - d. The Incidental Fees List
 - e. The Agreement for Market Display Services
4. A copy of their driver's license.
5. A check payable to "Tuco Trading, LLC" funding their account. According to the new account package, Class B Members were supposed to open an account with at least \$10,000, but per Frederick, could open an account with a smaller amount with Frederick's okay.

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 3

Upon completion of the new account package and deposit of money to become a Class B Member, Tuco would establish a trading account and ability to trade securities via various trading software. Software systems used by day traders include Lightspeed Trading Platform (principal one used), Sterling (also called Forex), Instaquote, V Trade, F-10 (Falcon Trading System), and Hydra, among others (the "Commercial Trading Software"). Three (3) types of Class B Members were admitted into Tuco as follows:

1. Single Members – Single members generally had one trading account.
2. Master Account Members – Master account members generally had multiple trading accounts that Tuco viewed as one combined account balance. Certain traders in certain master accounts may view themselves as independent traders, which Ling did not address in this report.
3. Members with Sub-Accounts – Members with sub-accounts were generally other day trading operators that used a single Tuco Class B Member account to operate their day trading business. Tuco considered the combined balance of the members with sub-accounts as one account balance, even though many sub-accounts had negative balances. Tuco has identified the following Class B Members as members with sub-accounts:
 - A. Lanai, Ltd. ("Lanai")
 - B. T3 ("T3")
 - C. Blackhawk Trading ("Blackhawk")
 - D. Coper Trading
 - E. Robotic Markets, Inc.
 - F. JC Trading

Tuco's primary source of income was commissions earned from Class B Member securities trades and commissions earned by Frederick for referring traders to GLB. Commissions were generally charged based upon the number of shares traded. Tuco was not the registered securities broker that directly earns the commissions. Frederick is the licensed broker who received the commissions and transferred them to Tuco.

Frederick, the Class A managing member, would negotiate various commission rates with Class B Members. Per Frederick, commissions could range from \$10 per 1,000 shares traded for single members to \$0 for one Class B Member with sub-accounts, which was purportedly admitted to generate savings for Tuco due to its large volume of trading by decreasing the rates Tuco was charged by trading platform Lightspeed.

Class B Members traded through Tuco because Tuco offered increased leverage at competitive commission rates. Class B Members were provided access to trade in virtually all types of securities in virtually all United States public markets. Per

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 4

Frederick, 99% of the trade orders placed by Tuco's Class B Members were in equity securities, only in United States public markets. Tuco also permitted option, futures and commodity trades. No foreign market or currency trades were purportedly permitted.

Certain Class B Members or sub-account members were foreign residents or have a foreign country affiliation. Certain, although not all, significant Class B Member Traders Equity Positions that have a foreign country affiliation include Lanai, Coper Trading, Blackhawk and Serafin Group.

Volume in Tuco Class B Member trading increased dramatically in approximately November 2007. Several Class B Members with sub-accounts, notably T3 and Lanai, apparently increased their sub-account membership and securities trading dramatically. Per Frederick, historical monthly trading prior to November 2007 totaled approximately 400 million shares. Per Frederick, trading for December 2007 and each month thereafter averaged approximately 2 billion shares. Per Frederick, Lanai totaled approximately 1 billion shares per month from December 1, 2007 until trading was halted on March 6, 2008.

Tuco Class B Members were expected to maintain positive equity positions. Many Class B Members incurred negative equity positions. Frederick, Tuco's head of trading Mike Kestler ("Kestler") and staff were supposed to monitor trading activity to be sure Class B Members did not incur negative trading balances or violate federal or state securities trading rules and regulations. It is evident by the large number of negative Class B Member trader account balances that close monitoring of trader accounts either did not occur or was ineffective.

Certain SEC rules apply to margin security trading, which the SEC has alleged Tuco may have violated as to certain or all Class B Members. Please refer to the SEC filings on the Case for more information regarding Tuco's alleged violations.

C. Books, Records and Analysis

On March 6, 2008, the Receiver, his legal counsel, Allen Matkins Leck Gamble Mallory & Natsis LLP, 501 West Broadway, 15th Floor, San Diego, California 92101-3177 ("Allen Matkins"), his information and technology consultant, Investigative Technologies ("IT"), and Ling met with and interviewed Frederick. In addition, the Receiver, Allen Matkins, IT and Ling met with the former attorneys for Tuco and Frederick, Michele R. Fron and Audette P. Morales of Keesal, Young & Logan, 400 Oceangate, Long Beach, California 90801-1730.

Much of the information included in this report was derived from interviews with Frederick. Tuco and Frederick were not good record keepers and did not document

Exhibit A
 Page 4 of 103

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 5

transactions with, among other things, books and records, written agreements, workpapers and legal files that most companies maintain.

Information requested from Frederick and Tuco to date, which is being analyzed by the Receiver, Allen Matkins, IT and Ling is listed as Exhibit I. The Receiver, Allen Matkins, IT and Ling have been and are continuing to analyze the information and records provided by Frederick and Tuco.

Tuco maintained their books and records via QuickBooks, a widely recognized accounting software system (the "QuickBooks Records"). Ling was provided access to the QuickBooks Records for the period August 14 to December 31, 2006, as of and for the year ended December 31, 2007, as of February 29 and March 5, 2008, and for the periods January 1 to February 29 and March 5, 2008, respectively. Tuco's books and records do not include all assets, liabilities, members' equity, revenue and expenses. Further, many items included in the QuickBooks Records were not classified to the proper general ledger account. Tuco's failure to maintain books and records incorporating all accounting information, has limited Ling's ability to analyze Tuco's financial position.

Tuco inherited (see Item 1 below) and developed a day trader tracking software ("Titans System") to track the Class B Members Day Trader Equity Positions at any given point in time ("Traders Equity Positions"). The Titans System was designed to interface with and record equity trades made via Commercial Trading Software used by Tuco's Class B Members.

Ling, to complete the accounting for Tuco, via various schedules attached and via correction of entries and entered into the QuickBooks records, from inception to March 5, 2008, the date of the TRO, and to date, has completed the following:

1. The majority of the initial equity and Class B Members of Tuco came from an entity entitled Evolution Capital, LLC ("Evolution"). Evolution was apparently a day trading company. Per Frederick, Evolution was an entity owned by Kestler and Jonathan Kirkland ("Kirkland") and for which Frederick was a consultant. Per Frederick, on November 1, 2006, via an oral agreement, Tuco agreed to admit Evolution's day traders as Class B Members of Tuco with a capital contribution equal to their Trading Equity Position on that date. Evolution, via an oral agreement, agreed to contribute to Tuco a portion of two (2) JP Morgan Chase bank accounts and four (4) broker accounts with Penson. The software used by Evolution to track day trader equity was the same software system as the Titans System. The individual Class B Member equity positions recorded by Tuco were the same balances as the ending Evolution equity on October 31, 2006, per the Titans System. Per Frederick, Tuco also assumed two (2) loans of Evolution; a \$200,000 loan to Kirkland, which has been fully repaid by Tuco, and a \$100,000

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 6

line of credit with Bank of America upon which Tuco began making payments after the admission of the Evolution day traders as Class B Members in Tuco. Ling has summarized the Evolution net assets over liabilities contributed to Tuco attached as Exhibit II. Ling has also summarized the Evolution positive trade equity accounts as compared to net assets over liabilities contributed by Evolution to Tuco on the date of the transfer, attached as Exhibit III. As is illustrated on the schedule, there was an excess of net liabilities over assets to cover positive trader equity of \$520,397 on the date of the Evolution takeover by Tuco. In addition, certain items were paid from the Evolution bank accounts after they were assumed by Tuco that related to Evolution and are not recorded on Tuco's books and records, which are attached as Exhibit IV. Ling is continuing to analyze the information provided by Tuco to record the Evolution transaction.

2. Banking transactions for all identified Tuco and Evolution bank accounts were traced to bank statements with corrections made, as necessary, to the QuickBooks Records. A listing of bank account balances and accounts analyzed and reconciled to the QuickBooks Records is listed as Exhibit V.
3. Copies of Tuco's broker records were obtained for the various broker accounts. A listing of broker account balances and accounts identified and posted to the QuickBooks Records is attached and listed as Exhibit VI.
4. A reconciliation of the commissions paid to Frederick by GLB and, in turn, to Tuco was next completed. The April 2008 reconciliation from GLB has not yet been produced to reconcile commissions due Frederick and, in turn, to Tuco. Certain charges to Tuco and claims for possible future charges by GLB are under investigation by the Receiver. The GLB Trading, Inc. Commission Received reconciliation is attached and listed as Exhibit VII.

Tuco, in turn, entered into oral agreements with certain licensed brokers who referred business to Tuco splitting certain commissions earned by Tuco. Please refer to the Related Party Transactions section later in this report for a description and summary of the commissions identified and paid to David Halperin, Jonathan Bae and Thomas Wilbeck.

5. An analysis of broker account transactions was completed to record all broker account non-trading and trading activity.

This analysis included reconciling transfers to and from the broker accounts to Tuco bank accounts, loans made to Tuco by third parties with interest paid directly deposited into and repaid out of the broker accounts and various other charges and credits made to the broker trading accounts, certain of which may have been charged or credited to Class B Members.

Thomas F. Lennon, Receiver
Tuco Trading, LLC
May 28, 2008
Page 7

Ling next determined trading profits and losses that occurred from broker statements. Ling has not validated individual Class B Member trading profits to broker statements, as this would require the matching of billions of shares of equities traded as recorded by the Commercial Trading Software via the Titans System into the Traders Equity Positions. IT has met with the Tuco computer consultants to review the Titans System. Please refer to the Receiver's report for additional information on this work. Ling derived Class B Member trading profits and losses for the periods November 1 to December 31, 2006, January 1 to December 31, 2007, and January 1 to May 5, 2008 by taking beginning broker account balances, adding or deducting non-trading activity and adding or subtracting the ending broker account balances for the periods listed.

Attached as Exhibits VIII is the Summary Analysis of Broker Account Activity and Trading.

6. An analysis of the Class B Members Traders Equity Positions prepared by Tuco's computer consultant from the data accumulated from the Titans System was prepared. The summary included members' contributions and distributions and Class B Members net day trading profits and other charges as tracked by the Titans System (the "Summary Traders Equity Analysis") for the periods November 1 to December 31, 2006, the year ended December 31, 2007, and the period January 1 to May 5, 2008 listed as Exhibit IX. This Summary Trader Equity Analysis is a history of all transactions posted to the Traders Equity Positions from Tuco's inception to date. The summary Equity Traders Analysis includes day trade activity for billions of shares of equities initiated by the Commercial Trading Software and tracked by the Titans System.

Ling compared the Class B Member contributions and distributions per the updated QuickBooks cash banking records to the Summary Traders Equity Analysis (the "QuickBooks to Traders Equity Capital Contribution and Distribution Variance Analysis") and listed variances, which analysis is listed as Exhibit X. Ling is continuing to investigate variances to update the Traders Equity Positions and the Summary Traders Equity Analysis.

Ling has prepared a reconciliation of the variances between the Summary Trader Equity Analysis combined profits and losses as compared to broker activity for the periods ended December 31, 2006, December 31, 2007 and May 5, 2008. Certain credits and charges by Penson, GLB and other third parties are under investigation by the Receiver. These credits and charges have to be taken into account to complete this reconciliation.

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 8

Ling is continuing to research the variance between the broker statements and the Summary Trader Equity Analysis. Attached as Exhibit XI is a Variance Analysis of Broker Account Activity to Summary Equity Trader Profit and Loss.

7. Ling completed a reconciliation of the United States Federal Form 1065, U.S. Return of Partnership Income, Domestic Limited Liability Company, tax return which was filed for the period November 1 to December 31, 2006 ("December 31, 2006 Tax Return") to the Summary Traders Equity Analysis for the same period. A Nevada address was used as the filing address. No state tax returns were filed. Ling reconciled the QuickBooks member contributions and distributions and Trader Equity Positions to the December 31, 2006 Tax Return and noted variances in amounts and Class B Members reported in the return. Please refer to Exhibit XII attached for these variances.

From the various accounting information described above, a Tuco Summary Statement of Net Assets over Liabilities was prepared as of December 31, 2006 and 2007, March 5 and May 5, 2008, attached as Exhibit XIII. This Summary Statement of Net Assets over Liabilities includes all identified assets and liabilities on the dates listed as derived from the Tuco records located to date.

Next, a listing of Negative Traders Equity Position as of December 31, 2006, December 31, 2007, March 5, 2008 and May 5, 2008 was prepared and is attached as Exhibit XIV. This Exhibit lists individual Class B Members with a negative Traders Equity Position with summary totals provided under the three (3) Class B Member account types and was derived from the Summary Equity Trading Analysis as of the dates indicated.

Additionally, a summary of Class B Member's Traders Equity Positions was completed as of December 31, 2006, December 31, 2007, March 5, 2008 and May 5, 2008, which is attached as Exhibit XV. This analysis summarizes the number of and combined outstanding Traders Equity Positions as derived from the Summary Equity Trading Analysis. The analysis also lists the number of Class B Member balances, as defined, under \$25,000.

Finally, a summary of the amount by which Positive Traders Equity Position exceeds the Summary Statement of Net Assets over Liabilities known as the Shortfall (the "Shortfall") as of December 31, 2006, December 31, 2007, March 5, 2008 and May 5, 2008 was prepared and is attached as Exhibit XVI. The Shortfall analysis illustrates the amount by which Positive Traders Equity Positions, as defined, exceeds Tuco net assets over liabilities on the dates listed. Certain reasons, among others, for Shortfall occurring at Tuco include; traders incurring negative Trader Equity Positions due to losses on equity trades; distributions to Class A or B members in excess of capital accounts; and expenses exceeding revenues of Tuco, including payments to related parties. The Shortfall analysis does not take into account the costs of the Receivership through May 5,

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 9

2008. This Shortfall will likely increase until the date of completion of the Tuco Receivership as interest earned on monies on deposit will not equal Tuco Receivership expenses.

Ling intends to submit a complete set of QuickBooks accounting records to the Court from the inception of Tuco to date upon completion of the Receivership.

Related Party Transactions:

The Receiver, Allen Matkins and Ling have identified certain related parties for which schedules of payments to or from them as identified to date are listed in schedules attached as follows:

1. Douglas Frederick. Frederick (per Frederick) is the single Class A managing member of Tuco. Frederick (per Frederick) was a consultant to Evolution. Frederick was the licensed broker representative with GLB for Tuco. Frederick was a day trader at Tuco. A payment was made by Tuco on behalf of Frederick to enable Frederick to sell a house in Michigan (per Frederick). Frederick received periodic payments or other compensation from Tuco. Tuco paid Frederick's living expenses. A summary of Tuco transactions with or on behalf of Frederick is attached as Exhibit XVII.
2. Mike Kestler. Kestler was a managing member of Evolution (per Frederick). Kestler was the initial managing member of Tuco as indicated in the December 31, 2006 Tax Return. Kestler was a "silent partner" in Tuco, a description used by Frederick. Kestler was the head of trading for Tuco for which he received periodic payments or other compensation. Per Frederick, Kestler is a personal guarantor for the Evolution Bank of America credit line originally totaling \$100,000, upon which Tuco has been making payments. Further, Kestler, via an entity under his control known as Black Cat, LLC ("Black Cat") received an advance totaling \$25,000 that remains unpaid as of the date of this report. Kestler also day traded while with Tuco for which he had a net negative Trader's Equity Position totaling \$36,933 and \$54,715 on March 5 and May 5, 2008, respectively. Please refer to Exhibit XVIII for a list of Tuco identified transactions with Kestler.
3. Jonathan Kirkland. Kirkland was a managing member of Evolution (per Frederick). Kirkland was owed \$200,000 by Evolution, which debt Tuco assumed and paid. Kirkland was a "silent partner" in Tuco, a description used by Frederick. Kirkland received periodic payments or other compensation from Tuco. Kirkland was a day trader in Tuco. Kirkland (per Frederick) is the principal of Blackhawk, a Class B Member with Sub-Accounts in Tuco that has a negative capital account balance of \$266,081 as of March 5 and May 5, 2008. Per

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 10

- Frederick, Kirkland relocated to China sometime after the Evolution takeover by Tuco. A summary of Tuco transactions with Kirkland is attached as Exhibit XIX.
4. GLB Trading, Inc. GLB was the primary broker-dealer used by Frederick for Tuco. GLB paid commissions to Frederick who, in turn, paid the commissions to Tuco. GLB deducted various fees and charges from the Frederick commissions which are under investigation by the Receiver. A schedule summarizing commission received by Frederick and paid to Tuco is attached as Exhibit VII. Other transactions GLB had with Tuco are attached as Exhibit XX, including amounts GLB deducted from Tuco (Frederick) commissions earned.
 5. Robert A. Lechman. Robert A. Lechman ("Lechman") is the president of GLB. Lechman was also the owner or a principal in Back Office Lending, an entity that made loans to Tuco to increase margin leverage in the Penson broker accounts ("Back Office Lending"). Tuco made an interest free loan to Lechman totaling \$250,000, upon which a balance remains totaling \$100,000. Tuco transactions with Lechman and Back Office Lending are attached as Exhibit XXI.
 6. Frank McDonald, New Caledonia and Worldwide Trader Capital, Inc. Frank McDonald, who also operates as New Caledonia and Worldwide Trader Capital, Inc. ("McDonald") provided short-term loans to Tuco upon which interest was charged and paid by Tuco, which monies were deposited into the Penson broker accounts to provide increased leverage for margined trading. McDonald also provided a loan to a Class B Member, Accelerated Assets, for which, per Frederick, McDonald would be repaid in a share of the trading profits of Accelerated Assets. McDonald also had a day trading account at Tuco operated under the name of Schiller. Apparently a broker dealer account was opened by Tuco/McDonald at an entity titled Southwest Securities ("Southwest"), to whom Tuco/McDonald made loans/capital contributions totaling \$4,614,740. Tuco/McDonald earned trading profits totaling \$421,129 based upon deposits made to and returned from Southwest, per Frederick and an analysis of certain broker account transfer activity from March to December 2007. The Receiver has requested but has not been provided copies of broker dealer statements by McDonald as of the date of this report to verify transactions. Frederick explained that Tuco in effect became a subtrader under McDonald's account at Southwest until such time as the Titans System could track Lightspeed transactions at Penson. The Receiver, Allen Matkins and Ling will continue their investigation. A summary of Tuco transactions with McDonald is attached as Exhibits XXII.
 7. Lisa Hyatt. Lisa Hyatt ("Hyatt") rented office space from Tuco via an oral agreement. Per Frederick, Hyatt was also going to invest in Tuco as a Class A Member for which money was received and later returned. Per Frederick, Hyatt owned a company called Kayo Financial ("Kayo") and was also exploring

Thomas F. Lennon, Receiver.
 Tuco Trading, LLC
 May 28, 2008
 Page 11

purchasing another day trading or securities firm by the name of ETC Clearing for which Tuco advanced money to Hyatt via Kayo that was repaid to Tuco. Per Frederick, Ocean View Capital, an entity owned by Hyatt and Kestler, is leasing the vacated Tuco office space from the landlord. A summary of Tuco transactions with Hyatt and Kayo is attached as Exhibit XXIII.

8. Dave Halperin, CT Corporation, CT, LLC and Marquis Jet. Dave Halperin, who operates as CT Corporation and CT, LLC ("Halperin") was an individual who was the owner of or had an apparent relationship with a Class B Member, CT, LLC. Halperin is apparently a licensed broker with GLB, per Frederick. Tuco and Halperin have entered into an oral agreement to split certain commissions earned by Tuco. Per Frederick, Halperin set the commission structure for his clients referred to Tuco. Per Frederick, Tuco received \$1.50 per 1,000 shares traded of commissions received by Tuco, with the balance due Halperin for the following accounts:

1. Robert W. Murphy
2. CT Trade, LLC (personal account)
3. CT Trade, LLC 3 (personal account)
4. Ashit Johri
5. Alan Hoes
6. Michael Halperin
7. Keith McHugh
8. Eric Leopold Master Account
9. Orange Diviner Master Account
10. Bill Raffo

Halperin was issued checks by Tuco classified as commissions in the amount of \$652,522. A summary of Tuco transactions with Halperin is attached as Exhibit XXIV.

9. Brad Phillips. Brad Phillips ("Phillips"), per Frederick, is the stepbrother of Kirkland. Phillips at one time worked for Tuco. Per Frederick, Phillips improperly and intentionally made an entry to record \$100,000 more to a Class B Member Blackhawk's Traders Equity Position, which \$100,000 difference the Company never recovered. Blackhawk is the entity controlled by his stepbrother Kirkland. Frederick believes that Phillips is currently located in China. A summary of Tuco transactions with Phillips are attached as Exhibit XXV.
10. Jonathan Bae. Jonathan Bae ("Bae") is a Tuco Class B Member. Per Frederick, Bae was also an authorized trader for several other accounts under his master account with Tuco. In October 2007, Bae was trading a significant position in two (2) Chinese internet stocks which trades resulted in large losses. Phillips was

Thomas F. Lennon, Receiver
 Tuco Trading, LLC
 May 28, 2008
 Page 12

managing risk for Tuco at the time and did not contact Bae to advise him to immediately get out of Bae's position. Per Frederick, it took several days to work Bae out of these stocks and he lost almost \$800,000. Bae's Class B Member Negative Traders Equity Position as of March 5 and May 5, 2008 is \$879,255. A summary of Tuco transactions with Bae are attached as Exhibit XXVI.

11. Thomas Wilbeck and Woncey, Inc. Thomas Wilbeck, who also operates as Woncey, Inc. ("Wilbeck") is apparently a licensed broker with GLB, per Frederick. Wilbeck and Tuco, via an oral agreement, have agreed to equally share certain commission income on certain accounts referred to Tuco by Wilbeck, principally Serafin Group, a master account. Wilbeck was issued commission checks by Tuco in the amount of \$213,636. A summary of Tuco transactions with Wilbeck is attached as Exhibit XXVII.

Summary of Preliminary Findings

1. Tuco's approximate net assets over liabilities as of December 31, 2006, December 31, 2007, March 5, 2008 and May 5, 2008 as compared to positive Traders Equity Positions results in a Shortfall of \$1,507,881, \$1,553,396, \$2,990,805 and \$3,026,373 as of those respective dates (see Exhibit XVI).
2. As of March 5, 2008, approximately 323 investors in the United States and several foreign countries have approximately \$10,601,001 invested in Class B Tuco Membership Units. Tuco allowed approximately six (6) identified members to have subaccounts or submembers. Approximately 1691 subaccounts have been identified. Approximately 267 of the 282 Class B Tuco members have trader equity positions, as defined, of less than \$25,000. Approximately 1362 of the 1691 submember accounts (T3, a major Member with Subaccounts, has an unknown number of subaccounts or submembers with balances under \$25,000) have trader equity positions, as defined, of less than \$25,000. The number of investors and amounts invested has not been confirmed to Tuco files and records, but are based upon Tuco's Trader Equity Positions (see Exhibit XV C).
3. Tuco did not maintain accurate accounting books and records. Bank balances per Tuco's QuickBooks records have differences from banking records. Broker trading account balances are not recorded on Tuco's QuickBooks records. Tuco's books and records could not be relied upon for accurate financial information.
4. Tuco's Titans System Traders Equity Positions for tracking Class B Member securities trades does not agree with security positions as of November 1, 2006, December 31, 2006, December 31, 2007 and March 5 and May 5, 2008. The software was designed to track initial Class B Member contributions plus or

Thomas F. Lennon, Receiver
Tuco Trading, LLC
May 28, 2008
Page 13

minus Class B Member profits and losses from trading and other securities transactions, less distributions.

5. Certain Class B Members incurred negative trading account positions which, among other things, resulted in the Shortfall of Tuco net assets as compared to positive Traders Equity Positions. This results in the commingling of funds and exposes other Class B Members to possible losses outside of their trading activity.
6. Various payments were made to related parties when Tuco did not have net assets over liabilities that exceeded Traders Equity Positions.

Please contact us to discuss and review this report with you.

Very truly yours,

William H. Ling
Certified Public Accountant

Note:

- (1) Derived Trader profit and loss for each period will not be accurate as ending broker account balances include built-in-gains and losses on marketable securities as of period beginning and ending dates. The cumulative balance should be approximately accurate, as the ending broker balances on May 5, 2008 are the final liquidated broker balances. Built-in gains and losses are gains and losses from acquisition to a period in time that have not been recognized.
- (2) The Receiver, Allen Matkins, IT and Ling will continue to investigate the liquidation and distribution of certain Evolution members not transferring to Tucio and other items relating to Evolution. This may result in changes in the opening Penson account balances transferred to Tucio by Evolution and derived trader profit and loss.
