

2010 EXPIRATION CALENDAR

ENERGY

PRODUCTS

A CME/Chicago Board of Trade/NYMEX Company

As the world's largest and most diverse derivatives marketplace, CME Group is where the world comes to manage risk. CME Group exchanges offer the widest range of global benchmark products across all major asset classes, including futures and options based on interest rates, equity indexes, foreign exchange, energy, agricultural commodities, metals, weather and real estate. CME Group brings buyers and sellers together through its CME Globex electronic trading platform and its trading facilities in New York and Chicago. CME Group also operates CME Clearing, one of the largest central counterparty clearing services in the world, which provides clearing and settlement services for exchange-traded contracts, as well as for over-the-counter derivatives transactions through CME ClearPort. These products and services ensure that businesses everywhere can substantially mitigate counterparty credit risk in both listed and over-the-counter derivatives markets.

THE ENERGY MARKETPLACE

In 2008, NYMEX became part of CME Group. Together, we offer the most extensive and liquid energy complex in the world, including Light Sweet Crude Oil (WTI), Natural Gas (Henry Hub), petroleum and electricity products. Many of our contracts are benchmarks that set the price for these resources worldwide. From the world's largest industrial companies to financial institutions, our diverse universe of participants clear an average daily volume of 1.5 million energy contracts every day on CME Globex, through CME ClearPort or on our trading floor. And now that NYMEX is part of CME Group, the world's leading energy marketplace is growing even stronger.

A CME/Chicago Board of Trade/NYMEX Company

Three venues, three ways to access opportunity

No matter your preferred trading style, when you trade Energy futures and options with us, you are protected by transparency, anonymity, clearing and the guarantee of counterparty creditworthiness.

CME Globex

The most advanced and stable electronic derivatives trading platform, CME Globex offers the access to benchmark products, speed and flexibility to support the most complex and demanding trading.

CME ClearPort

CME ClearPort is a comprehensive set of flexible solutions for mitigating counterparty risk in over-the-counter (OTC) trading. Launched in 2002 to provide centralized clearing services and mitigate risk in the energy marketplace, today CME ClearPort clears transactions across multiple asset classes around the world. CME ClearPort features more than 700 listed contracts available, with more to come.

Trading Floor

Traditional open outcry trading of five core Energy contracts and more than 700 contracts that are also available in the OTC arena is available on our trading floor in New York. The floor is also host to our highest concentration of options trading liquidity.

Expiration and Notice Day information at a glance

This calendar provides Expiration and Notice Day information for Energy contracts, as well as a listing of CME Group trading holidays. All contracts are listed with, and subject to, the rules and regulations of NYMEX and CME. For further information on our Energy contracts visit www.cmegroup.com/energy or call the Energy and Metals Hotline at **212 299 2301**.

visit www.cmegroup.com/energy.

Futures trading is not suitable for all investors, and involves the risk of loss. Futures are a leveraged investment, and because only a percentage of a contract’s value is required to trade, it is possible to lose more than the amount of money deposited for a futures position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyles. And only a portion of those funds should be devoted to any one trade because they cannot expect to profit on every trade. All references to options refer to options on futures.
