

# Trading with CQG

**CQG offers the most dependable order routing tools.**

CQG provides a secure and reliable order routing capability. By personally installing and maintaining exchange connections, CQG saves FCM partners the cost of implementation and

support. Customers can take advantage of CQG's state-of-the-art analytical charts, data, and tools with fast, dependable order execution.

## Customer Support

- CQG supports all software and connectivity issues.
- CQG provides necessary training for clearing members to manage accounts and risk and investigate orders.
- CQG provides training and support for CQG Integrated Client customers.
- All trade mitigation is supported by the clearing members and exchanges.
- At least thirty days worth of trade data is easily accessible to the trader and the appropriate clearing member's trade desk.

## Reliability

CQG is committed to maintaining the rigorous standards of Six Sigma quality control for system availability and order processing time.

## Account and Risk Management

- CAST (Customer and Account Service Tool) enables brokers and support personnel at the FCM to manage accounts and provide support for trade routing orders through the gateway.
- Pre-trade risk management includes a full array of settings per account with an optional margining sub-system evaluating worst-case scenarios.

## Security

- Hosted gateway systems are maintained at fully secure locations.
- Strict information and privacy policies are followed.
- Transmitted orders are SSL-encrypted using RSA technology
- Gateways in Chicago, London, Singapore, and Sydney. Full disaster recovery.

## Order Entry Front-End Options

### CQG Integrated Client

CQG's order routing tools are intuitive to use, efficient, and provide key market information. Features include depth-of-market views on price ladders and trading directly from the charts and quote pages. Tools include:

- CQG Spreader
- DOMTrader®
- Quote SpreadSheet
- Enhanced Quote SpreadSheet
- Order Ticket
- Simple Order Ticket
- SnapTrader®

### CQG Trader

CQG Trader is a standalone trading application offered to traders who would like to use CQG's order routing functionality without the charting and technical analysis tools offered in CQG IC.

The platform includes the DOMTrader, Quote Board, and Orders and Positions window.
