Waiting to add if close above again

19/7/2017 20:30 - Screen Clipping
Limit to add near previous day opening bar high

19/7/2017 21:49 - Screen Clipping
Waiting for h4 to close above and add one more

20/7/2017 18:57 - Screen Clipping

Use 2 stops bcz h1 new box not friendly, expect if price close back into this box, market will need more to break back up
 Stop1 Sticks below prior bar low
 Stop2 below last 50bars mpoc and also h4 poc.

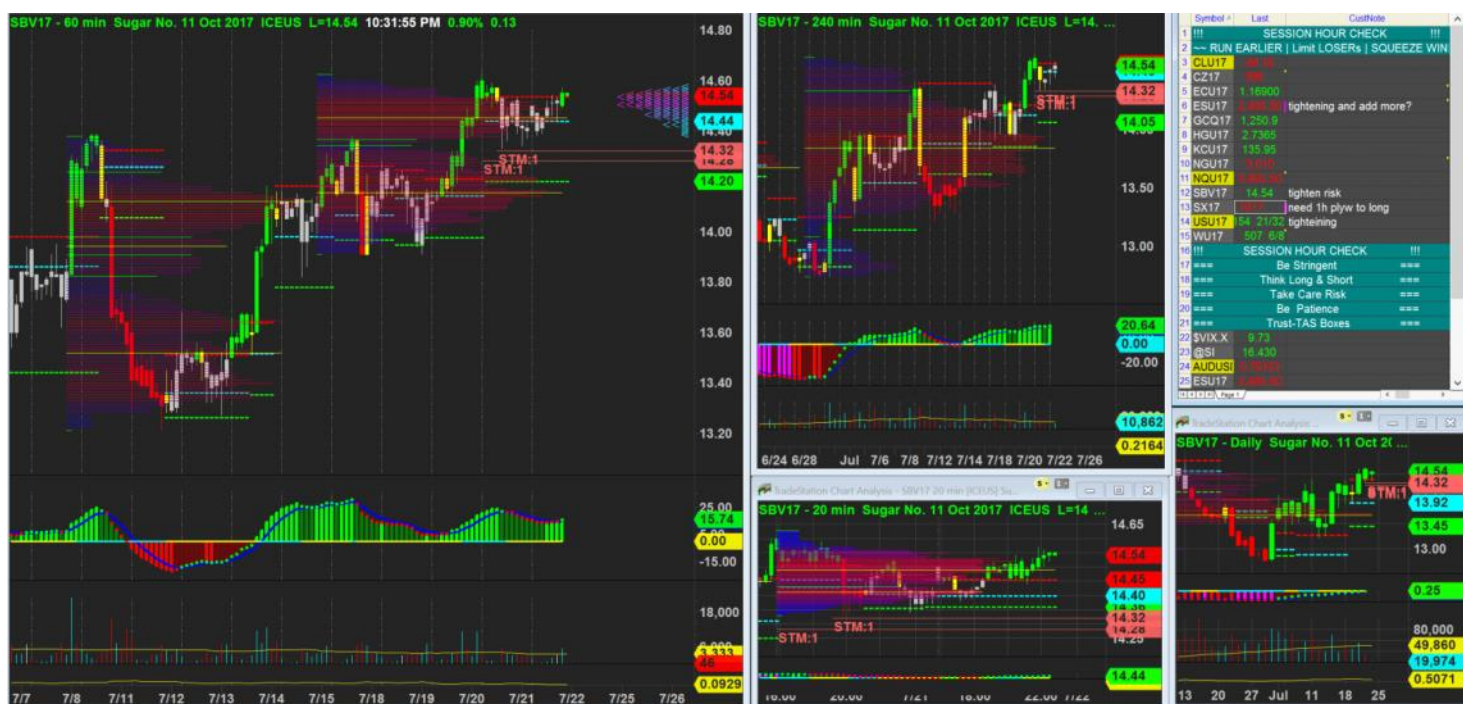

21/7/2017 02:05 - Screen Clipping

New h4 not friendly, need more positive development.

21/7/2017 22:12 - Screen Clipping

If close above h1 then I will tighten my wide stop to 14.28, 5 ticks below ytd tech low

21/7/2017 22:32 - Screen Clipping

Tightening up as planned, after top h1 mpoc grow and become primary

22/7/2017 03:05 - Screen Clipping

Out of position

26/7/2017 23:41 - Screen Clipping

Consider h4 short breakout a fake out, with navi supported near zero, h4 mpoc support and h1 hving a good swing with plywood support also. A breakout from h1 will be a good long opportunity But only worth a single lot for now, wait till h4 break out from h4 box then I will consider additional
