NQ is playing around this h1 mpoc here. Continue to stay bullish if break above h1 box, but may consider waiting to one more bar after the break out due to high volatility bar after bar.

5/8/2017 00:01 - Screen Clipping

Buy stop above h4 mpoc. Stop below last bar low for now, watching for small risk add on using buy limit after first order is in with tight stop below 5889-3

5/8/2017 01:07 - Screen Clipping
