2/28/19	Plan:	1/8 = 15t. Start with 20/20/20. Correction: 17t. 2nd day in a row made this mistake.									
	Result:	MFE's were tight. Lots of 19t MFEs. In the afternoon bear, any BDPB worked.									
	Day:	Open at GPOC & G bull TL. Immediate selling breaks TL clean and they sell down to below GL and stall.									
		Selling stops after 5m and a ragged H&S forms barely conforming to 1/8 curve setups, but does work.									
	Notes:	Closes inside bearish.
